

Department of Artificial Intelligence & Data Science

Webinar on

“Python Libraries for Data Science”

Date: 11 Feb 2023

Time: 2:00 P.M. – 4:00 P.M.

Speaker: Dr. Arun Agarwal (Asst. Professor, Ramanujan College, University of Delhi)

Venue: Online (<https://meet.google.com/ddx-vktg-imm>)

The session started with the introduction to Python. The speaker gave a brief about the programming language, its properties, features and different use-cases. The speaker covered the following topics during his session:

- Basics of Python
- How to use IDE
- Write your first program
- Basic data type and operators in python
- Python strings
- Control structure
- Functions
- List, tuple, set, dictionary

Students asked their queries in between as they were also exercising simultaneously.
